ARTICLE 18. NEW CONSTRUCTION LICENSE SURCHARGE

SEC. 5.18.001. FINDINGS.

The City Council of the City of Independence (hereinafter the "Council") finds and declares that:

1. During the 1990's, the City of Independence, Missouri experienced population growth and substantial land development and a corresponding increase in the volume of traffic utilizing City streets;
2. The Independence Comprehensive Plan, as amended, the current experience of the City and a professional market analysis, indicate that such growth and development within the City will continue into the twenty-first century;
3. New growth and development in the City has resulted, and will continue to result in increased use, burden and demand on the existing streets of the City, and the need for new streets to add capacity and to complete the street network needed for full build-out of the City;
4. The City assumes the responsibility for, and is committed to, generating revenue for the design, construction, and reconstruction of adequate streets and bridges necessary to serve the population of the City through all legally available revenue sources;
5. The Council has considered generating the needed revenue by imposing an excise tax in the form of a license surcharge on building contractors to be paid by development that generates new traffic in the City;
6. The Council finds and declares that it is in the public interest to impose an excise tax in the form of a license surcharge on building contractors who construct buildings and improvements that generate new traffic for the purpose of generating revenue, and that this is a fair way to allocate the cost of necessary street network improvements to the new development that creates the need for such improvements; and
7. The Council has determined that the most fair, equitable and uniform method to calculate the license surcharge is to base it on the number of trips generated by the development during the afternoon time period (p.m. peak hour) when traffic volume on the adjacent streets is highest.

SEC. 5.18.002. PURPOSE AND INTENT.

A. The purpose of this Article is to generate revenue, which shall be used to pay for streets throughout the City, including, but not limited to, the design, construction, and reconstruction of streets, bridges and related improvements in the City and the acquisition of all necessary rights-of-way, through the imposition of a license surcharge on building contractors who construct buildings and improvements that generate new traffic, which license surcharge shall be imposed based on the additional vehicle trips generated by any development activity during the afternoon time period (p.m. peak hour) when traffic volume on the adjacent streets is highest.

B. By adoption of this Article, the City Council intends to:

1. Establish an administrative review and appeal procedure to ensure that the license surcharge shall be imposed and collected in accordance with this Article, the City Charter and all applicable laws.

5. Empower the Street Improvement Oversight Committee to monitor the license surcharge and to make recommendations annually to the City Council regarding any amendments to this Article, administrative guidelines, the streets to be constructed from the license surcharge revenues, and any other matter related to the imposition, collection and use of the license surcharge proceeds.

C. By adoption of this Article, the City Council does not intend to impose a fee or other exaction pursuant to the general police powers of the City or to regulate construction, growth or development within the City.

SEC. 5.18.003. AUTHORITY.
